Information

Bart's BioResource (BBR) news and views is a monthly newsletter that showcases our research recruitment for the different layers of consent (data, biosamples, tissue donation \pm future contact) and our key locations where consenting currently takes place.

The *BBR* newsletter shares information on new sub project developments and also provides patient and staff feedbacks relevant to our research project.

The *BBR* can often support disease specific research projects and questions. If you would like to find out more or have any comments on this newsletter, please contact maudrian.burton@bartshealth.nhs.uk

Access to the project can be obtained by completing the below link

Patient Feedback

“I have always feared being asked about participating in research whilst attending my appointments. I believed it would involve experimental treatments. If I knew all about studies like the Barts BioResource, I would have volunteered years ago.”

Anonymous participant

“This sounds like a very useful project. I am grateful for the treatment I have received and I am glad I could contribute something to the doctors who have looked after me.”

Anonymous participant

Staff Feedback

“ This could potentially be extremely useful for me, I am looking at running a study and I believe the Barts BioResource will have all the data I require. How can I find out more information?”

Anonymous Cardiac Physiologist

Cumulative Recruitment

Barts BioResource cumulative recruitment
Total consent N = 21562; Total re-consent N = 2095
