Barts Resource

December 2018 Newsletter

Information

Bart's BioResource (BBR) news and views is a monthly newsletter that showcases our research recruitment for the different layers of consent (data, biosamples, tissue donation \pm future contact) and our key locations where consenting currently takes place.

The *BBR* newsletter shares information on new sub project developments and also provides patient and staff feedbacks relevant to our research project.

The *BBR* can often support disease specific research projects and questions. If you would like to find out more or have any comments on this newsletter, please contact maudrian.burton@bartshealth.nhs.uk

Access to the project can be obtained by completing the below link

<https://redcaphh.c-cloudservices.net/surveys/?s=yzBAF4pBrY>

Patient Feedback

“This sounds brilliant. I love taking part in research.”

Anonymous Patient

“ I feel uncomfortable having my data shared outside of the UK. For this reason, I have reservations about the BBR”

Anonymous Patient

“This sounds interesting however, I would like a copy to decide at home”

Anonymous Patient

Staff Feedback

“In this busy period we may need to take patients straight through for their procedure, sorry”

Anonymous staff

“I would like to thank the BBR team for their help in MRI”

Anonymous staff
